## SUMMARY

Motivated fresher with a strong interest in Data Analysis and computer technologies. Completed internships at Deloitte and Upskills Campus with practical exposure to data analytics and Python. Proficient in Advanced Excel, Power BI, and MySQL through continuous self-learning. Actively use AI tools for research and productivity, and eager to learn new skills and grow as a Data Analyst.

## EDUCATION

### Bachelor of Computer Applications (BCA)

Tilak Maharashtra Vidyapeeth, Pune

Expected: 2026

Pune, Maharashtra

### Higher Secondary Certificate (12th)

2022

### Secondary School Certificate (10th)

2020

## TECHNICAL SKILLS

**Programming Languages:** Python (Pandas, NumPy, Matplotlib), SQL (MySQL), JavaScript, HTML, CSS

**Data Analysis & Visualization:** Power BI, Tableau, Microsoft Excel (Advanced), Google Sheets, Data Cleaning

**Database & Tools:** MySQL, PostgreSQL Database, Git/GitHub, Jupyter Notebook, VS Code

**AI & Productivity:** ChatGPT, Prompt Searches, AI- Research Skills, And Learn New Techs

**Computer Fundamentals:** Operating Systems, Computer Networks, System Administration, Hardware & Software

## PROFESSIONAL EXPERIENCE

### Data Analytics Job Simulation Virtual Intern

Duration: 15 Days

Deloitte Australia – Forage

Remote

- Participated in job simulation covering data analytics workflow from requirements gathering to insights delivery
- Performed data quality assessment, cleaning, and transformation on large datasets
- Developed interactive visualizations and dashboards to present key performance indicators

### Python Intern

Duration: 1 Month

Upskills Campus

Remote

- Gained hands-on experience in Python programming with focus on data handling and basic analysis
- Used Python concepts and libraries to perform data manipulation and logic-based problem solving
- Improved coding, debugging, and problem-solving skills through real-world practice tasks

## PROJECTS

### Hospital Management Dashboard | Microsoft Excel, Advanced Analytics

2025

- Designed an interactive Excel dashboard to track patient admissions, occupancy, and department performance
- Used advanced formulas (VLOOKUP, INDEX-MATCH) and KPI visuals to deliver actionable insights

### AC Shop E-Commerce Website | HTML, CSS, JavaScript, Python, Django, MySQL

2025

- Built full-stack e-commerce website for AC shop with product catalog, shopping cart, and user authentication
- Developed responsive front-end using HTML5, CSS3, and JavaScript with modern UI/UX design principles
- Implemented Django backend with MySQL database for product management, order processing, and inventory tracking

## CERTIFICATIONS & TRAINING

Oracle Data Platform 2025 Certified Foundations Associate – Oracle

Data Analytics Job Simulation – Deloitte Australia (Forage)

Python Internship Certification – Upskills Campus

SQL for Data Analysis – Simplilearn

Python for Data Analysis – Simplilearn

Advanced Excel for Data Analytics – Simplilearn
